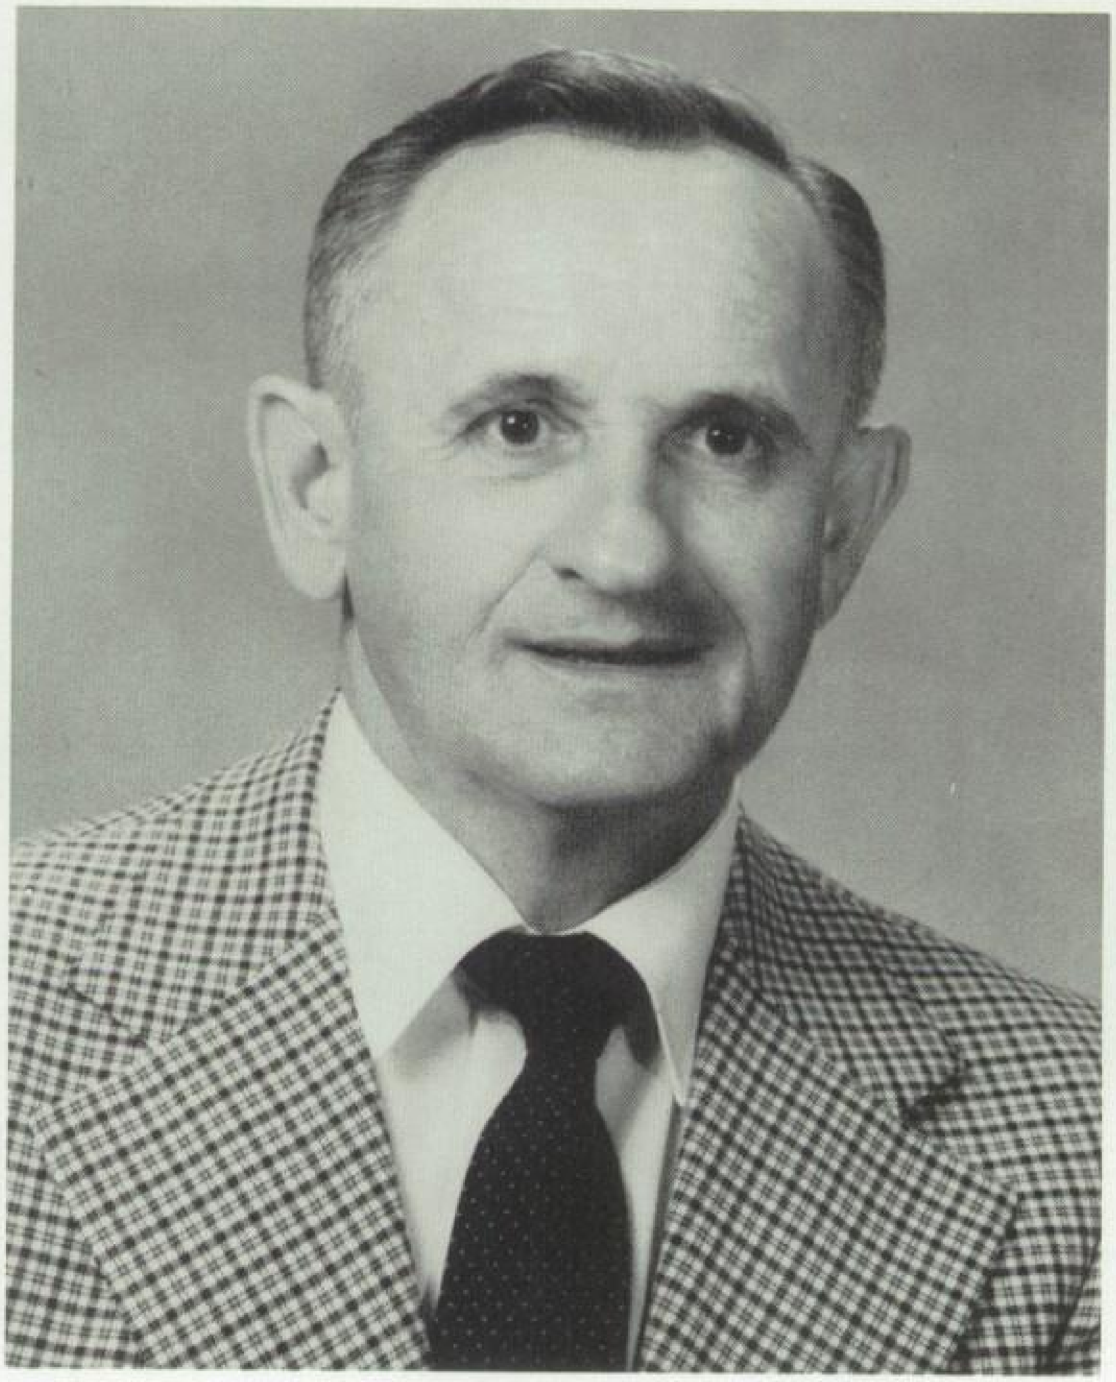
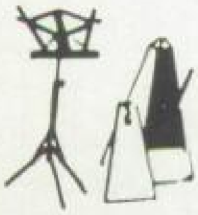
"We Dedicate Our Yearbook To





. . . To his work, his family, his students, his friends and to those whom he shall never know personally but whose hearts he has touched and opened.

. . . To a man who may not realize (although we do) the overpowering effect he has on the emotions of people before, during and after a performance.

For your constant hard work, caring and never ending smile we dedicate the 1984 Forum to you, Mr. Edward Laettner.

One Who Is Himself Dedicated"

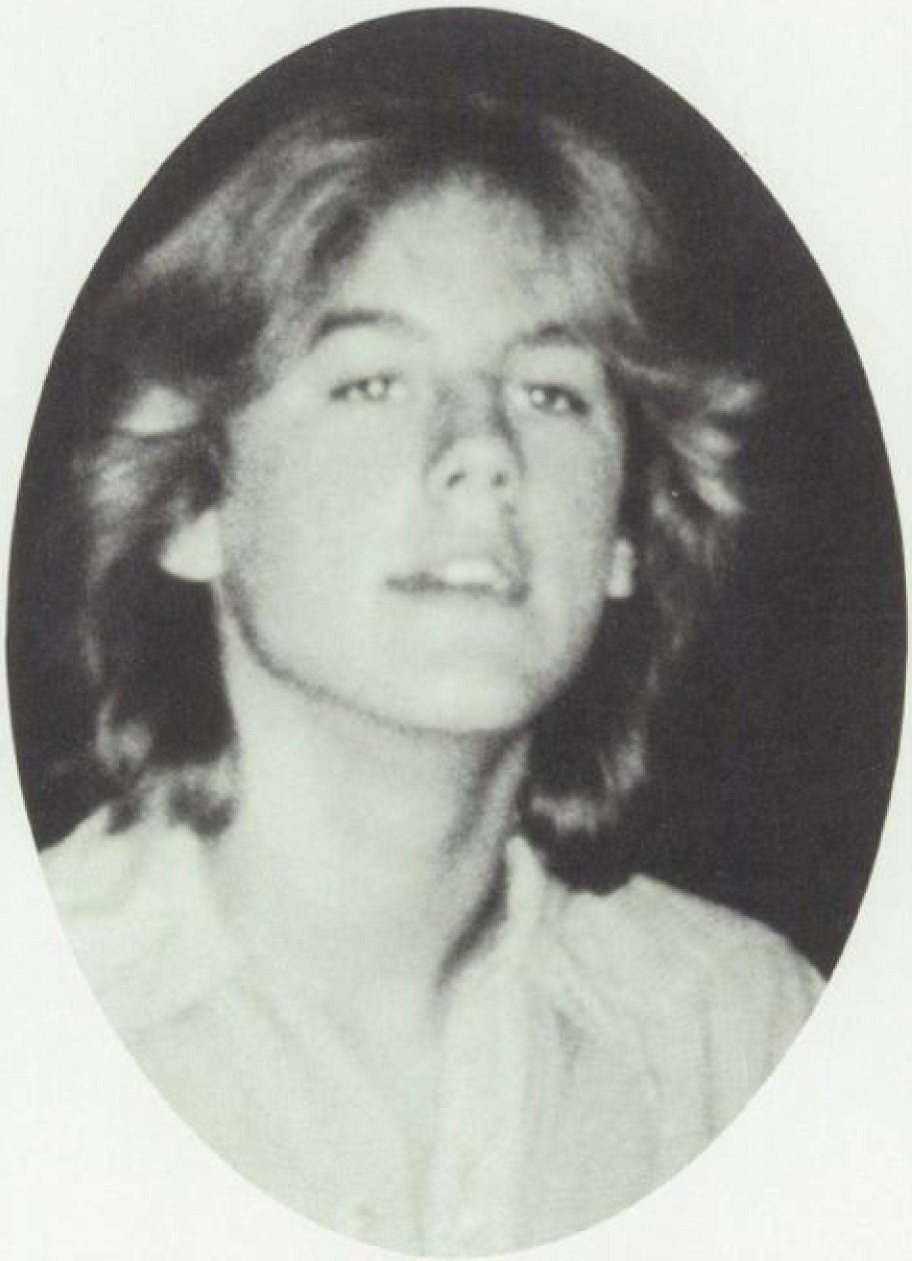
In Memory of . . .

January 1 1966



October 28 1981

James John Januszkiewicz

Jimmie was an exceptional person, and everybody could see it in him. He was a very dear and close friend of mine. I love him as if he were my own brother. I know many others feel the same way as I do.

He had something special that drew everyone to him. He had time for everyone and he always put his family and friends before himself.

It's hard for us to understand why God had to take him so soon, but we must go on, for Jimmie wouldn't want us to feel sad for long, but only remember him for the real person he was.

— Michael Maciejewski

Jimmie, we love you and miss you very much. You will always be in our hearts.

Mr. James Mazgajewski

PROGRAMMED FOR PROGRESS

In today's world, computers are commonplace and their capabilities are well known, However, even with the extensive array of functions that computers perform, it is understood that the computer must first be programmed in order to operate.

This is also the case with you as an individual. Over your school career to date, you have been given the tools or programs necessary to become a functioning, successful member of an ever-changing and challenging society. Your place in life and your productiveness throughout, will be greatly determined by how you utilize the skills that you have been taught. As the computer is programmed to accomplish different tasks in an improved fashion, you too have been given the training needed to accomplish your goals and improve yourself as well as your community.

Best wishes to the Class of '84.
Mr. James Mazgajewski

Senior High Principal

PROGRAMMED FOR PROGRESS

Almost midway through the 80's we find ourselves in a world governed largely by computers. Man in this evolving civilization has indeed become "programmed for progress."

As you first entered the corridors of J.F.K., you were the most advanced of computers with infinite memory capacity. Over the past four years your teachers have fed data into your memory banks and refined your functions until you have now reached the ultimate peak of performance.

However, you have not expended your capacity; you have only begun to refine your functions. You stand poised on the edge of discovery, you *are* "programmed for progress."

It is your efforts which will move the progress of our country forward. It is your quest for knowledge which will discover and uncover new frontiers. You are the future of the world. Your days at Kennedy have helped to prepare you for the unlimited possibilities that await you. It remains only for you to step out into the new territory — beyond high school — and become all that you are capable of being.

Mr. Henery Zwierzchowski

Junior High Principal

Mr. Daniel Mahoney

Websters *"New World Dictionary"* defines *"PROGRAM"* as "a plan or procedure for dealing with some matter; and *"PROGRESS"* as, "to advance toward perfection or to a higher or better state; to improve."

Therefore, what you are purporting through your theme, is that, the years you have spent at your Alma Mater, have served, in essence, as your plan to improve.

Commencement 1984 is but a beginning, since, how close you come to meeting your commitments and achieving your goal(s) is concomitant with what you do, how much, and how well!

Whatever your "Program For Progress" is, you *MUST* take *PRIDE* in the product or the SERVICE that you render. Quality controls Progress! Remember that, if nothing else!

The well-being of your nation is dependent upon a "Quality Work Force" to meet the challenges of the "World Marketplace," and you and the generations to follow will be the prime determinant in establishing "how well we fare."

Pride produces "Quality"; and quality begets competitiveness; and "Competitiveness" is what it's all about; America Depends on You! May God Bless *You and America!* You are our *vitality* and *Longevity!*

Could we please hurry? I have to go to the bathroom.

Thursday night bridge club

On March 18 and 19, 1983, John F. Kennedy High School students brought memories of the fun and excitement of the 50's in their production of "Grease," a box office hit.

Jacquelyn Neal played Sandy, a sweet, wholesome girl. The cast also included Ronald Ruggiero as Danny, a high school boy with easy-going charm and the leader of a gang; and Julian Sisti as Rizzo, a tough, outspoken girl and leader of the Pink Ladies.

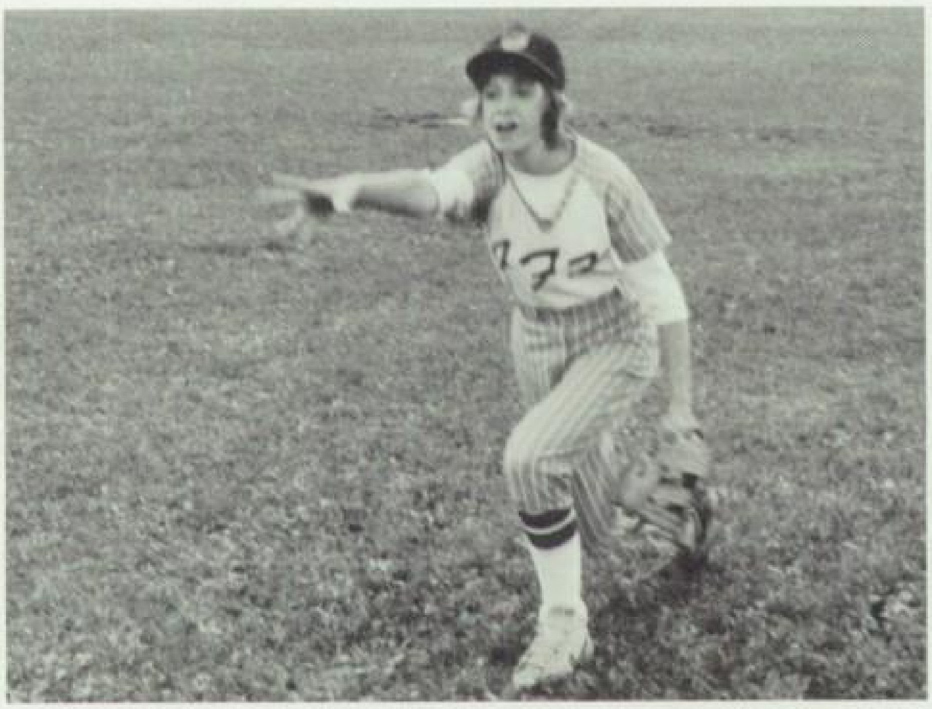
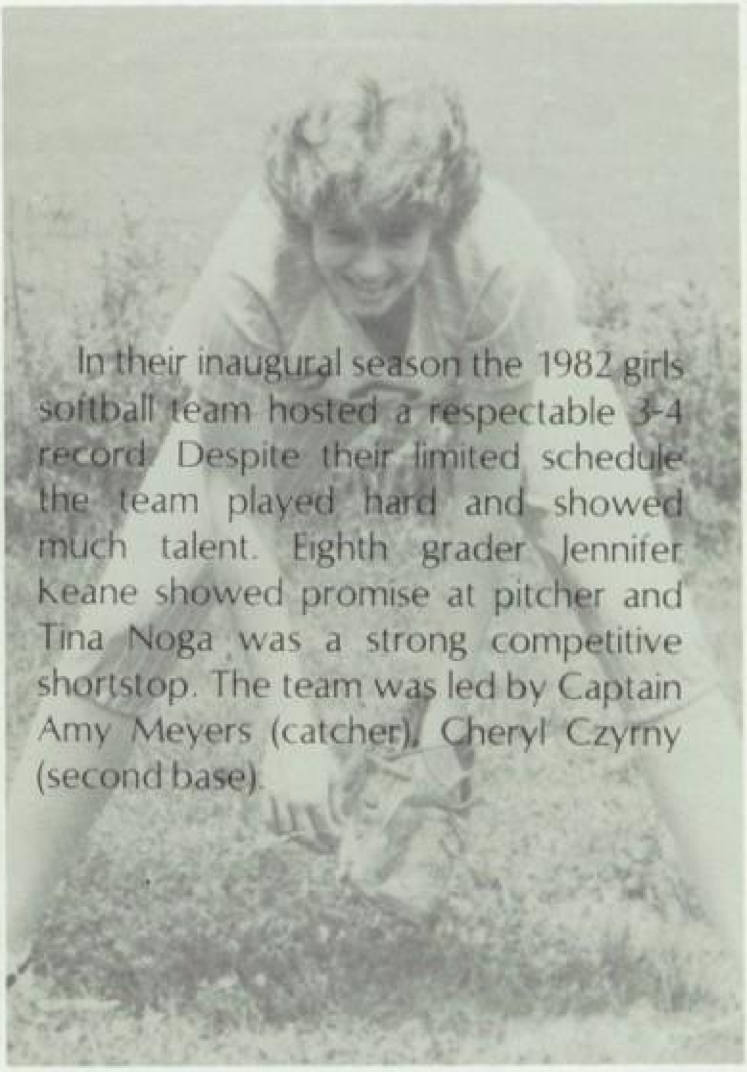
Girls J.V. Softball



"Hey, come back here."



In their inaugural season the 1982 girls softball team hosted a respectable 3-4 record. Despite their limited schedule the team played hard and showed much talent. Eighth grader Jennifer Keane showed promise at pitcher and Tina Noga was a strong competitive shortstop. The team was led by Captain Amy Meyers (catcher), Cheryl Czyrny (second base).

"Land of the Crabapple"

TO MY FRIENDS . . .

Being friends comes so naturally to us — We're always there for each other, and it's never a chore, it's done from desire never an effort, but always a pleasure. We've been friends for quite a while now, and I'm sure that you know what I mean when I say that,

The memories we've got are some of the finest I ever hope to have.

Thank you for your friendships,

This is dedicated to all "FRIENDS"
I send you a smile for just being there
By my side when I'm down and showing that you care
I send you love for caring for me when I was sick or
hurt or wanting company
I send you a rainbow for saying to me
The sun needs the rain for a rainbow to be
I'd send you the world if dreams could come true
For a FRIEND takes it all then returns it to you!

This is to all those who have dedicated their time and effort to the production of this book.

Sometimes we had to play the "bad guy" but we did it not because we felt superior but because we had a job to do and we had to remind you that there was serious work to be done.

As you can see all our yelling helped produce the final product — an *excellent* yearbook.

You've all put forth 110% of your effort — you accomplished more than most people could or for that matter would. You can and should be proud of your work.

Thank You For the Memories!
Love and Friendship,
Your Editors
Celeste and Lisa
